

**Press Release  
For Immediate Release**

**August 26, 2014**

**EARLY LEARNING FOR CHILDREN AT THE CPCC  
GET REGISTERED FOR FALL**

**Bolton, ON** – The leaves are starting to show their beautiful fall colours and that means children everywhere will soon be back to school. At the Caledon Parent-Child Centre (CPCC), the onset of the fall season means registration for a wide range of free early learning programs and activities is just around the corner.

The years from birth to age six are the most influential in a child's development and how we care for our children during those first six years sets the stage for lifelong learning, behaviour and health. At the Caledon Parent-Child Centre, families with young children can take part in a variety of *free* early learning programs and activities. Parents and caregivers may also get helpful information about their child's development and about services to support that development. Be sure to register for their Fall session of programs the week of September 8 to 13. This Fall's schedule of parenting and infant development programs includes You & Your Baby Playtime, Make The Connection and Infant Mother Goose. Preschool and school readiness programs for children 2 to 6 years will also be offered such as School Here I Come, Math is Everywhere and Adventures In Science.

Based on registration volume and space limitations, a lottery system may be used to determine participation. For more information on the Fall Schedule including detailed program descriptions and registration guidelines, visit [www.cp-cc.org](http://www.cp-cc.org) or call 905-857-0090.

"Family Time" drop-in is open five days a week and programs are also being offered at the Cheltenham Satellite. **Please note that the Centre will be closed from September 2 to 6 for Fall program planning.**

The CPCC/OEYC is a non-profit community service organization that provides support, resources, and education that strengthen families and promote the optimal development of children. Parents and caregivers with young children can access a variety of free child development programs, family support services and helpful information on parenting.
